Rationale for Proposed Boundary Changes: Mann and Hyde-Addison absorbs portions of the Key boundary in an effort to relieve pressure. Key is over capacity with several temporary classrooms on site. Boundary participation rate is high with some population growth expected.

Proposed Geographic Destination Feeder Schools (Feeder Pathway): Anyone living in the proposed new boundary for Key ES is zoned for and has a right to attend Hardy MS and Wilson HS. Any student attending the school out-of-boundary has the right to continue in the feeder pattern to Wilson. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

Proposed Programmatic Destination School (Feeder Pathway): No programmatic feeder pattern proposed.
